Hello Everyone, I think winter has "finally" loosened its grip on us! The temps have been inching up and the sun seems to peeking out on a regular basis.

On July 24th, the LMC will be holding its "17th" Annual Golf Outing at Royal St. Patrick's Links Course in Wrightstown, WI. Test your golf skills on the "Links" setting and enjoy the relaxing scramble format. The early bird special of \$90 is available till June 27th, so act soon before the event fills up! The golf flyer and registration form is available on our website: www.lmcouncil.org, or email the office for a flyer. There are also many different kinds of sponsorships available, just call the office (920-882-7712) for more information. Can't attend but would like to be recognized, donate a raffle prize and your name will be printed in the event day flyer. However, the best way to enjoy the day of sun, camaraderie, and golfing on the links is to attend. Hope to see you there!

The 41st Annual Spring Conference was filled with wide variety of speakers talking about our communities, jobs, relationships, education, and retirement. Have you heard about STEM Education? STEM stands for Science, Technology, Engineering, and Mathematics. Steve Meyer, teaches STEM in the Brillion School District, and he does it with great passion. One of the projects the students partake in is designing, building, and testing their own watercraft. It is made with cardboard, duct tape, and all the hot glue available! Yes, they do float, how long is the question? Great job Steve!

MEMBER'S CORNER

This issue we are spotlighting:

FRICKE PRINTING SERVICE was founded in 1960 by Robert W. Fricke Sr. as a commercial printing service in Manitowoc, WI. Bob Sr. was a pressman at the Manitowoc Herald Times newspaper for 38 years before going into business. He was the original president of Local 563 Printing Pressmen's Union when it was established at the newspaper and upon going into business became a union print shop in Manitowoc.

After high school graduation, Robert W. Fricke Jr. joined his father as an apprentice in 1962 and obtained a journeyman printer certification through the State of Wisconsin and the union apprenticeship program. Bob Jr. served as Secretary-Treasurer of Local 563 from 1971 until the local merged with local 77-P in Neenah, WI.

After receiving their college degrees from the University of Minnesota and University of Wisconsin-Oshkosh, respectively, William Fricke and Amy Fricke-Weigel joined the company in the 1990's making it a third generation business. They brought a wealth of knowledge with them making it the successful operation it is today.

WHAT WE DO

Our mission is to give you exactly what you want, when and where you want it from your initial estimate to final delivery. We'll work with you to guarantee your job is run in the most cost efficient and effective way. We'll make sure it's done right the first time.

From pre-press preparation, printing, cutting and folding to stitching and binding or mailing, we go the extra mile to make sure your project receives the right finishing touches, so you can achieve the results you want.

Fricke Printing Service can help you develop your ideas to their fullest potential. We have the technology and experience to turn great concepts into great products. We can do everything from full-color printing to one-color printing, with a quick turnaround on the project and also are a fully NCOA certified mail house.

One-stop shop at Fricke Printing Service can simplify your life. We'll print your product and mail it too. You can send us your files over the internet, download them directly to our FTP site, drop them off or we'll pick them up.

Continued..... Many of our communities are struggling with a different type of problem in recent years, Heroin. Brad Dunlap, from the MEG Unit explained where it comes from, how distributed, and its affordability. The presentation was interesting and disturbing at the same time. Brad's presentation is on our website (www.lmcouncil.org) under "forms", take a look and inform yourself about heroin in our communities.

We also heard about partnerships, retirement planning and economic conditions. A BIG THANK YOU to all the speakers raffle donors.

The Fall Conference will be on Tuesday, Oct 21, at the Plumbers and Steamfitters Hall (UA 400). Tentative topics are partnerships, ACA updates, apprenticeships and the LMC Annual meeting. This a 1/2 day event (8am-11:30am) so, keep the date open. More info coming.

Have a Great Summer! Steve Kovalaske
